2-DAY WALK

FOR BREAST CANCER

It's the Journey has partnered with our Medical Sponsor, Wellstar, to establish the following safety guidelines. **Keep yourself and others protected by following the 3Ws - wear a mask, watch your distance, and wash your hands.** With this advice in mind, we have established the following guidelines for our walkers, crew, and volunteers:

- **Masking**
 - Walkers are encouraged to mask while walking.
 - Everyone should wear a mask indoors, at B'Rest stops, and in the sweep vans (at B'Rest stops, masks are not required if 6 feet apart).
- **Social Distancing**
 - Please respect social distancing measures as indicated throughout the hotel and the route.
 - Floor markers will be visible throughout 2-Day event spaces to help with social distancing.
 - 2-Day check-in area will be limited to 25% room capacity.
 - We recommend using the Marriott Bonvoy mobile app to reduce lines/time at hotel check-in. Contactless entry will be available for room entry for those using the app.
 - The Saturday Night Celebration will be broadcast via Marriott's streaming service and available to view in your hotel room.
 - Please respect all indoor areas marked as "restricted" to staff and crew.
 - Outdoor spaces will be measured and marked with taped guidelines when necessary, ie. at Closing Ceremonies.
 - Stoplight bracelets will be available at check-in to signal a participant's level of comfort with physical proximity.
 - Red = Please stay 6 feet away. I am being extra cautious.
 - Yellow = Talking is fine, but no touching.
 - Green = I am ok with high-fives and handshakes.
- **Hand-washing/Cleanliness**
 - Extra hand sanitizer stations will be available throughout hotel, along the route, and in the sweep vans.
 - Boxed meals will be served by hotel staff and will include Saturday dinner and Sunday breakfast.
- **Special Considerations:**
 - If a participant has been diagnosed with COVID in the past 10 days, then the individual needs to follow quarantine protocols and not participate until beyond the 10-day quarantine requirement.
 - If a person is immunosuppressed and has previously been COVID-positive, the person must be 20 days post-COVID to participate.

Thank you for following the 3Ws and keeping everyone safe during this event!
